

Joint Equipment Assessment Program

Program Manager

Joint Equipment Assessment Program

The Joint Project Manager for Individual Protection (JPM IP) has chartered the Program Manager (PM), Joint Equipment Assessment Program (JEAP), with establishing policies and procedures to assess the condition/degradation and shelf life of NBCD assets. Focal point for all testing of clothing and textiles, as well as, data collection for all shelf life testing .

Joint Equipment Assessment Program

- **The JEAP has 4 Major Programs**
 - Joint Set-A-Side Program (JSSAP)
 - Shelf Life Management Program
 - Joint Equipment Assessment Units
 - NBCD Defense Reutilization and Marketing Services (DRMS)

Joint Equipment Assessment Program

JSSAP Functions:

- To obtain random samples of all NBCD equipment from procurement contracts as well as wholesale and retail commodities to conduct shelf life testing.
- To warehouse/monitor these samples and provide them as required for agent challenge and physical properties/porosity testing for shelf life extension.

Joint Equipment Assessment Program

NBCD Shelf Life Management/JSSAP:

- Current Policies**

- Shelf Life Memorandum of Agreement (MOA) for the JEAP, Signed Nov 2001
- DLAD 4155.37, Appendix T, March 10, 2004
 - ✓ MCO 4450.13A
 - ✓ AFJMAN 23-232
 - ✓ AR 702-18
 - ✓ NAVSUPINST 4410.56A

Joint Equipment Assessment Program

- **NBCD Shelf Life Management Operational Objectives:** Ultimately, the NBCD Shelf Life Management project is striving to minimize costs by providing an efficient, consolidated shelf life system that is fully integrated throughout the Joint Services and DoD agencies.
- **Funding** - Shelf life testing costs are developed based on annual inventories, DLA/DSCP and other service requirements.
- **Currently Teaming with**
 - DLA
 - DSCP
 - Battelle Memorial Institute Labs in Natick and Columbus
 - Dugway Proving Grounds, UT
 - Rock Island Arsenal, IL/Pine Bluff Arsenal, ARK

Joint Equipment Assessment Program

- **Communication**
 - Effective communications and teaming within the joint logistical community is paramount.
- **Coordination**
 - Effective coordination and teaming efforts between agencies is essential.
- **Joint Website**
 - An effective joint shelf life program will be realized through the establishment of a joint NBCD Asset Shelf Life website.

Joint Equipment Assessment Program

Joint Equipment Assessment Units

- Annual Joint Assessments
- Army's MRIP
- JSMLT IPT for DT and OT
- Training

Joint Equipment Assessment Program

NBCD DRMS:

- Three processing sites in operation (DFW, MBB, MPB)
- Four clearinghouse sites in operation (HI, OKI, COL, NOR)
- Joint Policy on marking training assets pending signature
- JEAP-DRMS disposal production statistics to date (30 June 04)
 - Assets processed to date: 1.6M items (8,099 pallets)
 - Assets shipped/due in to JEAP-DRMS: 2.1M items
 - Training assets issued to date: 13,390 items
 - Serviceable assets recovered to date: 13,640
